

CEQA

Since 2003, School Site Solutions, Inc. (SSS) has provided comprehensive project management services for site selection, acquisition and approval, including compliance with the California Environmental Quality Act (CEQA). We have extensive experience with CEQA, particularly as it relates to projects on new and existing school sites. Each having served in the California Department of Education's School Facilities Planning Division, we have unique insight into the challenges of CEQA compliance.

SSS provides a hands-on style of project management and environmental services, striving to fully integrate the school district team into CEQA's planning process. We pride ourselves on producing CEQA compliance documents that are thoroughly prepared and thoughtfully constructed.

What do I need to do to comply with CEQA for site acquisition?

Is my project Categorically Exempt from CEQA?

What are cumulative impacts?
